FARMVILLE.

Prince Edward is waking up on the subject of good roads and is going to get ont of the old ruts. Macadam is the watchword of the hour and if we only build a mile a year the idea is to do good work on that much. The spirit of public improvement was born in Farmville and is spreading the country over. Our sister counties may reply by saying you are selling whisky, then i your source of revenu—and to this, we have to plead guilty. There is but one answer and that is we are making good use of the money, though by many it is called "blood money."

Notwithstanding the fact that we have the fountain of health right at our doors, we have been p sain, through a sharp epidemic of measels. A harmless disease of itself, but one that will not tolerate after imprudences.

Doctors all dread pneumonia ca ses. A little care on the part of the victims and all trouble would be avoided.

Some of our merchants are advertising catchy "under cost" sales and much to the disgust of other merchants.

Our ladies are industrious bargain hunters and are sure to go where pennies are to be saved. I have known a lady in one of our cities to spend 10 cents on a street car to get a ten cent article at the store for eight cents, and she seemed to be well pleased with her bargain.

The wonder to me is that all merchants don't advertise and sales twice a year and clean up stock.

I met with a "knight of the grip" the other day who told me that he found in Farmville one of the best hotels he ever stopped at.

No man who has left Farmville for a number of years is more missed than is Dr. John Hunter. His dogs made music for us all and it was better music than that made by hands.

I spent the night recently in a country home and the good house wife a ter supper invited me into chamber, lifted the cloth covering from a box and showed me 70 young chicks just hatched from an incubater. It was a sight to see and she is nursing them tenderly hoping to get big money for them in the early city markets. A neighbor of hers has just shipped six turkeys to market, one of them weighing 24 pounds dressed and she was confidently expecting a check for $18. There two ladies are going to pay the running expenses of the families from the sale of fowls and that will mean much in household economy.

Diversified farming is the material salvation of Southside Virginia. Farmers are re,retting that they could not sow oats in February. I am told that a crop is certain if the seeding can be done in that month.

Plant beds have been prepared and with the cloth as a covering there is no fear of frost. The one mistake of our cropping to be feared however.

School children are lamenting that most of the holidays for 1908 fall on Saturday. They rather think that this is not just fair though in some schools they make it a rule to teach on Saturday and give Monday as a holiday. Of course these children are not kicking as they get two days instead of one. When I was at school the children could not realize that the teacher enjoyed holidays, but I have learned to know that his is a great mi take. I believe they enjoy the rest even more than do the children.

I have a lady friend who enjoys windy days and she is welcoming the return of March. The rest of us are always singing, "never mind the weather s the wind don't blow."

Our store windows shine out with spring prints, but overcoats and cheerful fires are yet in demand.

Many of our homes have been brightened all the winter with flowers, and now we look forward to the coming of the roses again.

In front of some of our stores men stand who make frantic efforts to induce persons to enter. The habit is an abominable one and should be abolished.

Now and then I notice a farmer carrying a bale of hay home with him. I always regret the sight. Some few people contend that a farmer in this section can't afford to raise corn and meat, but on inve tigation of such cases it will be found that the meal tub is generally low and the whole house empty. I heard one farmer remark that he would raise his own meat if it cost him 25 cents a pound and that farmer always has old ham to sell.

One of our merchants is still on duty 16 hours out of 24 and of course has a good bank account. He must be a kind of stranger at home.

Our new postoffice and post master are giving general satisfaction. I often wonder at his patience with those people who never get any mail and yet ask constantly for it. There ought to be a Jim Crow window at all postoffices, just as Oklahoma has Jim Crow telephone stations.

Congressman Lassiter' picture no longer appears in our local papers and I miss it. His face is a striking one with much of the classic about it. If there are only two in the fight he will be sure to succeed himself. Stick a pin by my prophecy.

How about the TIMES and that $100.00 prize for May. Stir your stumps and win it. The honor and the cash will be comfortable.

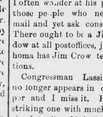
The head maid of the Queen dowager of Italy makes a thousand pounds a year from the sale of her mistress' cast-off clothes which are given to her as a perquisite. The purchasers, are for the most part, American tourists.

Since 1890 when the Grand Army of the Republic had 409,489 members enrolled its numerical strength has been cut down almost one half. There are only about 212,000 comrades now. The losses by death run up to 9,000 or 12,000 a year. There is practically no chance to gain recruits.

Girls in Denmark never experience the pleasure of receiving a diamond engagement ring. They are presented with a plain gold band, which is worn on the third finger of the left hand. On the wedding day the bride-groom changes the ring to the right third finger which is the marriage finger in that country.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most treacherous because deceptive. Many sudden and fatal deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.



Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root**, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

More and Better Tobacco —Bigger Profits

The labor is as great to grow and harvest a poor crop as a good one. When you can so surely increase *your* yields per acre" and get a far better quality of tobacco by using

Virginia-Carolina Fertilizers

why not use them this season? There's no reason why you cannot accomplish the same as thousands of others. Mr. V. C. Love, of Tinkling, Va., says "As a producer of fine tobacco, I do not feel I can say enough for your fertilizer. It makes tobacco that brings me more money than any other fertilizer I can get. I have tried many other brands but none equaled yours. I believe Virginia-Carolina Fertilizers to be the best on the market for tobacco."

Virginia-Carolina Fertilizers contain better and higher grade materials than any other brands of tobacco fertilizer. They will increase the yield per acre, and improve the texture and quality of the tobacco you grow, so you can get a better price per pound than ever before.

Much valuable information on tobacco-culture will be found in the new Virginia-Carolina Year Book Almanac. Don't fail to ask your fertilizer dealer for a copy, or write our nearest home office and one will be sent you free.

WHY It is to Your ADVANTAGE TO KEEP AN ACCOUNT WITH

Because it is a strong, careful, safe, liberal, prompt, accurate and successful institution.
Because Is the ONLY UNITED STATES GOVERNMENT DEPOSITORY in this immediate section.
Because It is a growing, active, progressive, up to date Bank in every particular.
Because Your account will be appreciated by the Bank and your interests will always be carefully considered.
Because The Bank has an excellent fire proon vault and a modern Burglar proof safe in which to put your funds and papers
Because This Bank studies the needs of its customers and takes care of them whether their business is large or small.
Because It does an exclusive banking business and consequently no body can serve you better.
Because Its dealings with all customers are absolutely confidential and it is always ready to assist and advise.

BECAUSE we do not believe you can ask for better treatment than the officers of the bank will give you, and we therefore ask you to write to, or call on us.

Money Should not be a Source of Worry

But it often is. People loan their savings to others. When the interest is due it is not forthcoming. And then the principal itself is frequently lost. Most persons can earn money, but comparitively few are fortunate in placing their surplus in individual loans that are both safe and profitable.

In a good, sound, reliable bank like this your money will be absolutely secure. Our certificates bear 3 per cent interest.

We solicit your account, whether commercial or savings. Every branch of the banking business is conducted here. We make a specialty of mail order banking.

The Old Homestead.

Changed! ah changed is the old homestead!
That hangs on hinges of gladness;
Its mantle—the garment of gladness.

How changed the homestead. The door old rent!
Since mother and father have flown,
But we know God's will is always best,
And we try not, try not mourn.

Changed are the scenes of the old home!
The flower that bloomed—the vine that did cling.
Have left us, vanished and gone—
Making long winter of spring.

Kind were the friends out rings the home stead,
Where orphans were bowed in deep grief;
Unfurled love's standard, and o'er us spread
Kindness that gave some relief.

Let none look themselves in alcoves of steel,
Against humanity's cry;
Let all hasten the comfort, and heal
And help brighten their sky.

Just a word, a look may sooth hearts that bleed,
And heaven and angels rejoice;
When comfort and kindness are scattered like seed,
On soil by tears made moist.

We know it is wrong any trouble to nurse,
We must not, we do not complain;
But orphans' tears from their channels will burst,
And more from their banks after rain.

For many long years we have looked up to Him,
For comfort and strength from on high;
The comfort received, sufficient has been
To cheer and brighten our way.

"It may be the fever of pain and anger
When the wounded spirit is hard to bear,
And only the Lord can draw forth the arrow
Left carelessly, cruelly rankling there."

Senator Don P. Halsey of Lynchburg and editor H. L. Opie of the Staunton Leader have been sending forth some arrows that must have stuck deep and the charges of lying and of being a coward were made. It seems that Mr. Opie in an editorial in his paper characterized Senator Halsey as a ring man in politics, on the "stand by me and I will stand by you order," without regard to public character, qualifications for office or any other considerations, and Senator Halsey read this on the floor of the Senate and stated that it was a willful deliberate and malicious lie. Mr. Opie wrote to Mr. Halsey who answered, but in the meantime Mr. Opie had published an article in his paper in which he said the utterances on the floor of the Senate were dishonorable and cowardly in that they were made when distance from resenting resisting the insult It is a pity that men are so easily angered. Mr. Halsey says that Mr. Opie's father was a particular friend of his.

Warm and Dry to Stay Well.

Now is the time when the doctor gets busy, and the patent medicine manufacturers reap the harvest unless great care is taken to dress warmly and keep the feet dry. That is the advice of an old eminent authority who says that Rheumatism and Kidney trouble weather is here and also tells what to do in case of an attack.

Get iron any good prescription pharmacy, one half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces Compound Syrup Sarsaparilla. Mix by shaking in a bottle and take a teaspoonful after meals and at bedtime.

Just try this simple home made mixture the first sign of Rheumatism, or if your back aches or you feel that the kidneys are not acting just right. This is said to be a splendid kidney regulator and almost certain remedy for almost all forms of Rheumatism which is caused by uric acid in the blood which the kidneys fail to filter out. Any one can easily prepare this at home and at small cost.

Druggists in this town and vicinity when shown the prescription stated that they can either supply these ingredients, or if our readers prefer, they will compound the mixture for them.

Dinwiddie.

DEAR TIMES:—The last several issues of your paper have been unusually good. The correspondents have been newsy and the editorials strong. The paper grows in interest and fills a large place in Virginia journalism. I hope none of the New York publications have their eye on our editor, they have gotten enough of our editors already. We have no more to spare.

Well, the wheel revolves rapidly these days and things "happen fast." Several weeks ago I attended the State anti-saloon league convention at Richmond. It was large, enthusiastic and determined. We are in the right fight and in it to stay till the open saloon "shall go" and go to stay. There was not a single "croaker" in the crowd. Every speech rang with the notes of victory. The address of Governor Glenn, of North Carolina was the greatest I ever heard. Pungent, pathetic, witty, wise, he is one of the sturdy sons of the "Old North State," of whom the whole South is justly proud. He unequivocally stands for prohibition and law enforcement whether it be a railroad or blind tiger that violates the law. In my mind I could but contrast Governor Glenn with many other public men of today and he "looms" up large among them. Poor old Virginia! She is gradually going down in the scale until she will rank with Arizona and New Mexico unless there arises a Moses to lead us out of our bondage, and he doth not yet appear.

I nominate Bryan and Glenn as the Democratic Presidential candidates. Two stronger, cleaner men are not to be found in American public life today.

While I in Richmond I visited the State Senate and House of Representatives. I was impressed with the large number of young men in the Senate, and the number of old men in the House. The Senate is a quiet, dignified body and does its work mostly through committees. Judge Mann is easily the leader and a very striking figure. He looks more like a minister of the gospel than a public law maker. Senator Stroble is also a strong man and Senator Halsey impresses you favorably, though I believe he was on the wrong side in the R, F, and P. railroad repeal bill. I am glad the bill passed and Virginia ceases to be a monopolist. Now let the Goulds go to work and complete their line.

Incidently I was invited to deliver an address at a Washington birthday celebration by our Trinity graded school. Miss Cora Spain is the principal and Mrs. Willard Cole, one of the primary department. The program, though not elaborate, was well selected and appropriate. The scholars all acquitted themselves well and showed an understanding of the full significance of the occasion, as well as a careful training. This is one of the best graded schools within my knowledge and the community is very proud of it. The teachers have the cooperation of the patrons and the Board.

I am afraid the cold wheels of commercialism are crushing out our patriotism. Grasping greed is poisoning the blood of our people, and graft has cursed every department of our civic life, till the high and noble ideals of George Washington are held in contempt. God save the Republic!

If we had more celebrations like the one I recently enjoyed it would kindle again the flame of patriotism and stimulate our boys and girls to the nobler things which make character. Our public school teachers have a great opportunity. May they wisely use it. Education is not to make money but to make manhood. Give the children a chance, for the children of today are the men and women of tomorrow, and as such, will be the moulders of the character of the Republic.

Tobacco has been selling for high prices in Petersburg during the past two or three weeks. Our great need now is good roads, but we almost despair. The Withers road law may give us some relief.

The Family Physician
The best medicines in the world cannot take the place of the family physician. Consult him early when taken ill. If the trouble is with your throat, bronchial tubes, or lungs, ask him about taking Ayer's Cherry Pectoral. Then take it or not, as he says.
